Kurt,
As mentioned earlier, here's our closure plan guidance:
Thanks,
Lisa

Lisa-

We had submitted the attached Pre-Closure Notification and Plan for the replacement of the septic system at Bennington Battlefield State Historic Site to the EPA back in April. We did not receive any response, and proceeded with construction. Since the facility is only for on-site sanitary sewage, our understanding was that no additional monitoring was required. The attached As-Built sketch shows the location of the final new leach filed. Please let me know if you have any questions.

Thanks,
Kurt

Kurt,

Please contact Lisa Kim Pelcyger at EPA and let her know what we are doing with the cesspool/new septic and submit the pre-closure plan. We are trying to settle this case and EPA is looking for the info. Kim.Lisa@epa.gov Thanks.

Kurt,

EPA is asking me to clarify when we will submit the pre-closure plan for the cesspool at Bennington Battlefield and when we expect to start construction for the new septic and removal of the cesspool at Bennington Battlefield. The pre-closure plan has to be submitted before the expected construction commencement date. Thanks.
